

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTICE OF CONTEST.

To the Hon. C. H. Burch—You are hereby notified that I will contest your election as State Senator from Yamhill county, State of Oregon, before the Senate of said State at the next meeting thereof, upon the following grounds, to-wit:

First: Illegal and fraudulent votes cast for you at the late election (held June 2nd, 1884,) by which you claim to be elected by the following named persons, viz: O. W. Olson, J. Jones, and Duncan Ross. The said named persons being, at the time they voted for you for State Senator, aliens and not entitled to vote at any election in this State. And John Munroe, Wm. Munroe, Joseph Harrington, Geo. Potiet, Eupitus Thomas, F. Multner, J. C. Patterson, A. P. Miller, E. P. Bower and F. A. Ashberry for the reason that at the time

said last named persons voted for you at said election they were non-residents of this county, and were not entitled to vote for you at said election. And I also contest your election, and your right to a seat in said Senate on the ground that other illegal votes were cast for you at said election besides the ones above named, and for the reason that your election was secured by said illegal votes.

And I will also contest your election on the grounds and for the reason that there was one vote cast for me at said election for State Senator in the precinct of East Chehalem, in said county, and State, which the Judges of Election refused to count for me, but threw it out, and said vote was never counted for me by said Judges, the canvassers of votes. And you are therefore hereby notified that I claim to have been legally elected State Senator from Yamhill county at said election instead of you, and that I will appear and claim my seat as such Senator at the next session thereof for the reasons above set forth, and for the reason that I received more legal votes and a majority over you for said office.

The President submitted the following communication from the Secretary of State and also the veto message of his excellency, Governor Moody, of S. B. No. 44, passed at the last Legislative Assembly, and also the bill:

COMMUNICATION FROM THE SECRETARY OF STATE.

SALEM, Jan. 14, 1885.

To the Honorable, the President of the Senate of the Legislative Assembly of the State of Oregon:

SIR: I have the honor to return to your honorable body S. B. No. 44, "An act to provide for the election of Precinct Assessors; abolish the office of County Assessor; change the method of making assessments and for recording the deeds of listed and patented lands to companies, persons or corporations that the same may be assessed," which was vetoed by his excellency, the Governor, under date of October 26, 1882, and returned to this office within the time prescribed by the Constitution. The reasons assigned for said veto will be found embraced in the executive endorsement attached to said bill.

Very respectfully, your obedient servant,

R. P. EARTHART,
Secretary of State.

VETO MESSAGE.

EXECUTIVE OFFICE,
SALEM, OREGON,
October 26, 1882. }

Gentlemen of the Senate of the State of Oregon:

I respectfully return to you herewith my disapproval of Senate bill No. 44, a bill for "an act to provide for the election of Precinct Assessors; abolish the office of County Assessors; change the method of making assessments and for the recording of deeds of listed and patented lands to companies, persons or corporations that the same may be assessed."

The reasons for my disapproval, briefly stated, are as follows:

It is provided in the first section of the proposed act that there shall be elected at each general election a Precinct Assessor in each precinct, and by the second section of said act that the term of office of the present Assessor shall commence on the first Monday in July next following the election. The next general election in the State takes place in June, 1884, and by the provisions of this act the term of office of the Precinct Assessors to be elected would commence on the first Monday in July, 1884.

If this act were approved it would take effect under the Constitution in January, 1883.

The act so amends sec. 18, of chapter 41, of the Miscellaneous Laws of Oregon as to abolish the office of County Assessor. But even if this provision could be so construed as to justify the continuance in office until July, 1884, of the County Assessors now holding office throughout the State, the repeal of sections 37, 38, 39, and 40 of chapter 57 of the Mis. Laws of Oregon, cuts off one of the most important functions of the office, and deprives the taxpayers for 1883 of the advantage of an equalization of assessment. The effect and intention of the act seems clearly to point to an immediate abolition of the office of County Assessor. An approval of the act abolishes the office in January 1883, while by no reasonable construction can it be inferred that the office of Precinct Assessor is to have an election until July, 1884. There is nothing in this act to imply the existence of a Precinct Assessor, prior to the election of 1884, as might be inferred if there was a direct provision for assessment in 1883 by such an officer.

Section 11, chapter 41, of the Miscellaneous Laws of Oregon, provides that when, at any time, there shall be a vacancy in the offices of County Clerk, Sheriff, Coroner, or any county or precinct officer,

and no officer duly authorized to execute the duties thereof; some suitable person may be appointed by the County Court to perform the duties of either of said offices. This section, however, has no application to the case. It provides for the filling of a vacancy in an office already having an existence, but certainly cannot be construed so as to confer upon the County Court the power to create an office.

Under the provisions of Senate Bill No. 44, there can be no Assessor in the State from January, 1883, to July, 1884, either county or precinct, and, even should a County Assessor presume to act, the duties of assessing would be so changed as to make it impossible for him to properly carry out the provisions of this bill.

Believing, as I do, that an approval of this bill would jeopardize the legality of an assessment for the year 1883, and seriously interfere with the revenue of the State, I am compelled to withhold my signature,

Z. F. MOODY,
Governor.

S. B. No. 44 of the session of 1882, accompanying the foregoing message, being a bill for "An act to provide for the election of Precinct Assessors, abolish the office of County Assessor, change the method of making assessments, and for the recording of deeds of listed and patented lands to companies, persons or corporations, that the same may be assessed," being now before the Senate, the question was, "Shall the bill pass, the objections of the Governor to the contrary notwithstanding?"

Pending this question, and on motion of Mr. Davenport, it was ordered that the bill lie on the table.

Mr. Davenport introduced:

SENATE JOINT RESOLUTION NO 5.

Resolved by the Senate, the House concurring:

That the Committees on Public Lands of the two Houses be hereby directed to inquire into the management of the swamp lands of the State by the officers to whom they were intrusted. That they hold joint sessions when a meeting is deemed proper during the time of engagement upon the work. That they be allowed to employ a competent clerk to assist them. That they be empowered to send for persons and papers, to compel the attendance of witnesses, to administer oaths, and take testimony; any or all the foregoing, in their discretion, in order to make a thorough investigation of the matter aforesaid.

It is also recommended that they group their findings, as nearly as practicable, in the following order:

Firstly: As to whether the filing upon swamp lands and the payment of twenty per centum of the purchase price have been made according to the act of 1870.

Secondly: As to whether the final purchase of those lands, to which patent has been made by the State or to which the State has issued certificates or bonds, has been in conformity to the law aforesaid and especially has been done before the lapse of the ten years from the date of the first payment, as provided by said act.

Thirdly: As to whether the lands described in the last section are in fact swamp lands, or wholly, or in part, dry lands not subject to overflow, and as nearly as practicable, giving the relative proportions of them.

Fourthly: As to whether the proof of reclamation as required, has been made in conformity with the act, and whether there has been *bona fide* reclamation of the lands in question, viz: those purchased and patented or in process of patenting by the State.

The committee are also directed to report to the House before the close of the present session of the Legislative Assembly.

Mr. Davenport moved the Senate adopt the resolution.

On this motion the roll was called, resulting in the following vote:

Those voting aye were:

Messrs. Allen, Bilyeu, Burch, Carson, Cartwright, Cauthorn, Coleman, Davenport, Dorris, Emmitt, Haines, Hall, Hirsch, Hoult, Lee, Miller, Myers, Pennington, Prim, Reed, Rinehart, Shupe, Siglin, Simon, Warren, Weatherford, Williams, Voorhees, and Mr. President --29.

Nays--None.

Absent--Mr. Hare--1.

So the resolution was adopted.

Mr. Davenport also introduced:

SENATE JOINT RESOLUTION NO. 6.

WHEREAS, There are several bills in the two houses of the present Legislature upon the subject of assessment and taxation, and there seems to be a popular demand for a comprehensive and consistent plan of reform upon these subjects; therefore,

Resolved by the Senate, the House concurring:

That the Committees on Assessments of the two houses be hereby instructed to hold joint sessions while examining bills upon the

aforenamed subject, and that they be requested to report by bill or bills if they deem proper, and that they report to either house.

Mr. Davenport moved the resolution be adopted.

On this motion the roll was called, resulting in the following vote:

Those voting aye were:

Messrs. Allen, Bilyen, Burch, Carson, Cartwright, Cauthorn, Coleman, Davenport, Dorris, Emmitt, Haines, Hall, Hirsch, Hoult, Lee, Miller, Myers, Pennington, Prim, Reed, Rinehart, Shupe, Siglin, Simon, Warren, Weatherford, Williams, Voorhees, and Mr. President—29.

Nays—None.

Absent—Mr. Hare—1.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON,

EXECUTIVE OFFICE,

SALEM, Jan. 24th, 1885. }

To the Hon. President of the Senate:

I am requested by his excellency, the Governor, to forward to you, for the consideration of the Senate, the enclosed communication from Messrs. M. Wilkins, E. W. Allen and J. C. Swash, Assistant Commissioners, representing the State of Oregon at the World's Industrial and Cotton Centennial Exposition, now being held in the city of New Orleans, Louisiana.

Respectfully submitted,

CHAS. B. MOORES,

Private Secretary.

The report accompanying the foregoing message was, on motion, ordered printed, and is as follows:

REPORT.

NEW ORLEANS, La., December 30, 1884.

To His Excellency, Z. F. Moody, Governor of Oregon, Salem, Or.:

MOST HONORED AND ESTEEMED SIR: As State Commissioners, appointed by you for the purpose of arranging and taking charge of an exhibit of the natural, agricultural and manufactured products of the State of Oregon at the World's Industrial and Cotton Centennial Exposition now holding in this city, and expected to close May 31, 1885, we desire to make the following report of our work relative to what we have been able to accomplish, and our further requirements in order to accomplish what we deem the best interests of our State demand:

Each State and Territory received an appropriation of \$5,000 made by the Board of Management of the World's Fair, from the funds appropriated by Congress to assist the enterprise, for the purpose of getting together an exhibit of their products and industries. At a meeting of the U. S. Commissioners, held in the city of Washington in April last, it was unanimously resolved by those present that the Board of Management should deduct from the amount coming to each State and Territory \$1,000, which was to be used for the purpose of enlarging the building and fitting up State headquarters; providing, that any Commissioner, not present, dissenting, might claim the full amount by notifying Director General Bush to that effect by June 1, 1884. Hon. Jacob Myer, U. S. Commissioner for

Oregon, not raising any objection to the expenditure of \$1,000 of our money for the purposes above stated, his silence was construed as coinciding with the decision of the Washington meeting, and this left us \$4,000 to be expended in obtaining and supporting our exhibit at the World's Fair. Of this amount Hon. Jacob Myer has consumed, under the direction of Hon. J. W. Crawford, of Salem, \$1,666.66 in collecting a portion of the exhibit that we have here; \$500 has been taken by Mr. Myer from which to defray his own personal expenses, leaving \$1,834.34 for the use of the undersigned for transportation of the exhibit and ourselves from Portland to this place, and the arranging and fitting up of the display in a proper and becoming manner, and the payment of our personal expenses.

Any person who has had experience in such work, will readily understand that this amount is entirely too inadequate to pay the expense necessary, in order to make what, in an exposition of this character and magnitude, would be a creditable display to the State we represent; and more especially will this appear insufficient when they consider the exorbitant charges that are the inevitable consequence of such an exposition, and which are more conspicuous here than an ordinary imagination can picture.

We have, however, by practicing every possible means of economy, succeeded in arranging our exhibit in a very creditable and attractive manner, and one from which great benefits to the State must accrue, judging from the many favorable comments received through the press, the public and our fellow Commissioners. Every State and Territory, excepting Utah, is here represented, and have all, as far as learned, been aided by appropriations varying from \$10,000 to \$40,000, which has enabled them, in many instances, to make large and extensive exhibits. But although smaller than many, your Commissioners feel justified and proud to state that Oregon's exhibit is not excelled in quality and arrangement by any other department here represented, where the products, industries, arts and sciences of the world are brought together under one roof. You may judge of the importance of sustaining our display, when we state that even at this early day, we are besieged by persons from all parts of the world who express themselves as surprised at Oregon's products, considering the latitude in which she lays, and the meagre and generally incorrect information they had been able to obtain, and all eager for information concerning our agricultural, pastoral, mineral resources, etc., etc., and general description of our State. In short, it is surprising how little the world at large knows of our country and people.

To again return to figures: Of the \$1,834.34 placed at our disposal

we have already expended \$1,121 25, leaving a balance of \$713.-09. From this amount must be deducted the expense of the return home of Commissioner Wilkins, in a few days, and will leave E. W. Allen and J. C. Swash, Commissioners, to remain at a monthly expense of at least \$300 to about the first of February, should they retain sufficient to pay their expenses home. The question as to whether the State will make sufficient appropriation to enable Commissioners Allen and Swash to remain with the exhibit until the close of the Exposition, we deem a very important one, and trust your Excellency will deem the matter of such importance as to make some special recommendation to the Legislature relative to it, and that speedy action may be taken at an early day in the session of the Legislature that convenes in January. The distance being so great, prompt action alone can inform us in time what we may expect from the State, and the action we are to take in the matter. So far, the State has not been at a single dollar's expense in obtaining, transporting, arranging and maintaining this exhibit, at present on exhibition in New Orleans; and should its Representatives at Salem assembled, see any benefits to accrue to our State at large by its proper maintenance, as we rest assured they will, we ask that some other compensation, besides mere expenses, should be granted us for the eight or nine months of continuous hard labor from beginning to end, two of our number (Allen and Swash) will consume, should they be requested in the action of the Legislature, to remain until the close of the Exposition. We further humbly suggest that the appropriation should be sufficient to pay us what might be deemed a reasonable salary, which amount we will leave the honorable gentlemen comprising the Legislature of the State of Oregon to determine, without any further suggestions from us.

Trusting that this report of our action may meet with your hearty approbation, we beg to remain your most obedient servants,

M. WILKINS,
E. W. ALLEN,
J. C. SWASH,

Assistant Commissioners.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON,
EXECUTIVE OFFICE,
SALEM, Jan. 29th, 1885. }

To the honorable the President of the Senate:

The enclosed communication from Hon. H. M. Teller, Secretary of the Interior, relating to the subject of an inter-decimal census, is herewith submitted for the consideration of the Senate.

Z. F. MOODY,
Governor.

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., May 12th, 1884. }

To the Governor of Oregon:

SIR:—I have the honor to enclose herewith a copy of a communication from the Acting Superintendent of Census, relative to the action which is contemplated by the State of Oregon with reference to the subject of an inter-decimal census of the several States and Territories, in accordance with the provisions of the 22d section of the act of March 3d, 1879, therein related. As the purpose and scope of this communication has my approval, I transmit a copy thereof for your consideration, with the request that it may receive your earliest practicable attention.

I am, sir, very respectfully,

H. M. TELLER,
Secretary.

COMMUNICATION FROM THE SUPERINTENDENT OF CENSUS.

DEPARTMENT OF THE INTERIOR,
CENSUS OFFICE,
WASHINGTON, D. C., May 8, 1884. }

Hon. H. M. Teller, Secretary of the Interior:

SIR—I have the honor to call your attention to the terms of the twenty-second section of the act of March 31st, 1879, being an act to provide for taking the tenth and subsequent censuses, which section reads as follows, viz:

SEC. 22. That if any State or Territory, through its duly appointed officers or agents, shall, during the two months beginning on the first Monday of June of the year, which is the mean between the decennial censuses of the United States, by this act directed to be taken, take and complete a census in all respects according to the schedules and forms of enumeration in the census of the United States and shall deposit with the Secretary of the Interior, on or before the first day of September following, a full and authentic copy of all schedules returned and reports made by the officers and agents charged with such enumeration, then the Secretary of the Treasury shall, upon receiving a certificate from the Secretary of the Interior that such schedules and reports have been duly deposited, pay on the requisition of the Governor of such State or Territory, out of any funds in the treasury, not otherwise appropriated, a sum equal to fifty per centum of the amount which was paid to all supervisors and actual enumerators within such state or Territory at the United States census next preceding increased by one-half the per centage of gain in population in such State or Territory between the two United States censuses next preceding; *Provided*, That the blank schedules used for the purpose of enumeration herein provided for shall be similar, in all respects of form and size of heading and ruling, to those used in the census of the United States.

Although no congressional action giving further and more definite force to this section has yet been taken, it may be said that not improbably such legislation will be had at the present or early in next session of Congress, a bill for this purpose having already been introduced in the House of Representatives.

In any event, it is desirable to have, from the proper Representatives of the several States and Territories an expression of the intention of such States and Territories with reference to the purposes of the section herein referred to. Such an expression, indeed, is essential as a predication, for the action of this office in the premises.

I, therefore, have the honor to request that, if not inconsistent with your own views, a copy of this letter, or such other communication as may seem best adapted to effect its purpose may be addressed to the Governor of each of the several States with your official request that the probable or known action of the States in relation to this question may be communicated to this office at the earliest practicable moment.

the provisions thereof, shall be construed to have worked a forfeiture of any of the grants, rights, privileges or immunities granted or intended to be granted in either of said acts, subject to the following proviso:

Provided, That neither this act nor the act to which this is amendatory, shall, in any instance, be construed so as to vest any title in said Willamette Valley and Coast Railroad Company to any lands of whatever nature within the limits of said grant hereby confirmed to said company, for which a patent, or certificate for patent, has been issued by the United States or this State, to any person, prior to January 1st, 1885; and any marsh or tide lands belonging to the State of Oregon, which are embraced in the lands covered by patents or certificate for a patent from the United States or this State, is hereby released and confirmed by this State to the person or persons holding such patent or certificate thereof. That the tide and overflowed lands in and adjoining the city of Newport, Benton county, Oregon, as herein described, are exempt from the operation of this act, and from the acts to which it is amendatory, namely: All the tide and overflowed lands in front of lot No. 4, of sec. Sec. 11. That if the Willamette Valley and Coast Railroad Company shall, within ninety days after the approval hereof by the Governor, file in the office of the Secretary of State its agreement duly executed under its corporate seal, obliging itself to carry all troops and munitions of war of this State required to be conveyed on its road without charge to the State for a period of 14 years from and after such approval, without other compensation than the moneys arising from the taxes assessed, levied or collected on the property of

said company, then in consideration of said agreement and said services done or to be done for said period of (14) fourteen years, said company shall have and receive during said term all the taxes levied, assessed or collected, or which might have been levied, assessed or collected by the State upon its property, real and personal, and said taxes are hereby appropriated therefor.

FIFTH AMENDMENT.

Insert the following as section 5 of said bill:

SECTION 5. Inasmuch as said company desires forthwith to occupy and improve a portion of said lands for terminal and other purposes and to expend large sums of money thereon, this act shall take effect and be in force from and after its approval by the Governor.

Touching the proposed exemption from taxation, we may be permitted to add:

This exemption was first granted in 1874, and re-enacted in 1878. On the faith of it more than two millions of dollars have already been permanently invested and expended in this State.

We do not stop now to discuss the policy or impolicy of granting this exemption in the first instance. That question was concluded by legislative action at the time. Upon the faith of it the parties acted.

We, therefore, cannot give our sanction to the least appearance of bad faith on the part of the State by taking advantage of an omission arising from causes wholly beyond and above the control of the company, which was unavoidable and which, in its results, on the charter, is wholly technical. The company has, in substance at least, fully complied, on its part, with its engagements to the State. This is testified by the official notice of the fact in the Governor's recent message.

We think the company is now entitled to be placed in the same situation it would have occupied if the lapse of time had not occurred.

It is admitted by all who have acquainted themselves with the facts of this case that a refusal to confirm the acts of the Legislature of 1874 and 1878, conferring on this company the exemption in question, can only rest on this technical ground of lapse of time. Because, had the company finished by October 14th, 1884, no reference to this Legislature would have been necessary and this discussion could never have arisen. Any question touching said exemption would have had to be submitted to the Supreme Court of this State and not to the Legislature.

We have now the less hesitation in recommending the confirmation of the exemption on constitutional grounds, because the Supreme

Court of Oregon, in the recent tax case, has expressly declared, in effect, that it is the peculiar province of the Legislature to declare what property shall be exempt from taxation, as well as what shall be the subject of taxation; thus, in principle, sustaining the action of the Legislatures of 1874 and 1878, in the case now before us.

All of which is most respectfully submitted.

JOHN C. ALLEN,
Chairman.

On motion, amendment 1, proposed by the Committee, was adopted.

On motion, the second amendment was adopted.

Mr. Bilyeu moved to adopt the third amendment.

Mr. Hirsch moved to amend the third amendment by striking out the words "for a period of 15 years," which motion did not prevail.

Mr. Myers moved to amend the third amendment by striking out "15" and inserting "30," which motion prevailed.

Mr. Bilyeu moved to adopt the fourth amendment, and on this motion Messrs. Dorris and Siglin demanded the ayes and nays.

So the roll was called, which resulted in the following vote:

Very Respectfully,
 JOSHUA J. WALTON,
 Secretary of Regents.

We find the management of the school to be in the following condition:

This year there is a decrease in attendance, which, however, can in no way be attributed to any faults in the school or its operations, but is caused entirely by extreme financial distress of the people in all parts of the State.

There has been a constant increase in the number and variety of studies, and broader and more extended methods of instruction.

The greatest difficulty under which the institution is laboring is *want of room*. The number and size of the rooms are entirely inadequate to their present demands.

Their valuable mathematical instruments are worthless for want of room.

Their most excellent collection of minerals, and various features of geology and the animal kingdom are in a very cramped condition, and cannot, with their limited space, be displayed or used to the advantage that their great value entitles them.

Their library of valuable books is necessarily scattered and has to be kept in recitation rooms where they cannot be protected as they deserve.

Their chemical laboratory and experimenting room is in the same condition as the others, and being in the same building as all the other valuable property of the institution may some day be the occasion of a loss to the State that cannot be replaced.

For these reasons, and because we believe that the State University is being conducted in a manner that is of great benefit to the

State, and in a way that will make it the great center of education for the northwest coast, and because we believe that money properly invested by the State in developing her educational institutions brings the best returns, we would respectfully recommend that you make such appropriation, at this session of the Legislature, for increased facilities as will enable this institution to keep pace with the great advancement of our State.

We have examined H. B. No. 2, entitled, "a bill for an act to provide for the construction and furnishing of additional brick buildings for the University of Oregon and to appropriate money therefor," and recommend that the bill pass.

We also endorse the recommendations made in the report of Judge Deady as President of the Board of Regents to the Legislative Assembly.

H. B. MILLER,

I. D. HAINES,

Committee on the part of the Senate.

Mr. Carson, chairman of the committee to examine the Insane Asylum submitted the following:

REPORT.

SENATE CHAMBER,

SALEM, Feb. 4th, 1885. }

Mr. President—Your committee appointed under S. C. R. No. 3 to examine into the condition and management of the Oregon Insane Asylum, beg leave to report as follows:

We find the patients supplied with all the necessary requirements for their comfort, (so far as the management is concerned). An abundance of wholesome food, and due attention to personal cleanliness. Wards neat and clean, with as perfect sanitary and hygienic surroundings as is possible under the circumstances. We were pleased to observe that ample provision is made for mental diversion, so important for this class of unfortunate patients, as in chapel exercises, music and dancing.

The books are neat, and accurately kept.

The Asylum should be placed on an independent basis so far as its water supply is concerned.

The water main now in use is owned by the State Agricultural Society, and is entirely inadequate to supply the Asylum building with water for ordinary purposes much of the time; and in case of fire, the management would be absolutely helpless.

There are four towers in the building in which it was originally intended that tanks of large size should be built. These tanks should be completed and kept full of water, with hose connecting with every part of the building, with the least possible delay.

Your committee wish to emphasize the importance of an early completion of the sewer, by connecting it with the main sewer at the State House. The present deposit of all the sewerage from so large a building containing so many persons, constitutes a source of extreme danger to the health and lives of the inmates, as well as the surrounding community. The privy traps also require to be reconstructed.

Your committee also find the appliances for warming the building sadly inadequate. Especially is this so of that part of the building warmed by the old brick furnaces, the tops of which are burned out, and are constant sources of danger from fire. The old furnaces should be removed and replaced by furnaces which are efficient as heaters, and not a constant source of danger.

Your committee respectfully recommend an appropriation to be

applied to the construction of a building suitable for the occupancy of the employes.

Said building not to be connected to the Asylum. By so doing the capacity of the main building will be increased, as the front tier of rooms can be used by the patients, and thus obviating the necessity of building an addition for some years to come.

We recommend an appropriation for returning cured patients to their homes.

The laundry is too small, as is also the engine used in the laundry. It is thought the engine may be exchanged on fair terms for a larger one, affording the requisite power.

Your committee are of the opinion that the construction of a kitchen disconnected from the main building is imperative, as the kitchen now used is located under the main building, and the steam and odor of the food permeates the dining rooms and wards above, and is not only disagreeable, but unhealthful. The room now used as a kitchen can be converted into a store room to advantage.

We recommend a suitable appropriation for fitting up a room in the building as a Pathological Museum and Laboratory, in which specimens may be preserved, properly labeled and systematically arranged, and a suitable history attached to each.

We also recommend that the management be provided with a suitable safe for depositing valuables belonging to patients and employes.

Your committee believe that some light and pure air, as well as plenty of exercise, is indispensable for sick or invalids, and recommend that the grounds which are inclosed with a high fence, on the east of the main building, be suitably enlarged.

We are of the impression that the means of escape, in case of fire, are inadequate.

We herewith give a summary of about the amounts required by appropriation for the accomplishment of the changes and improvements as above enumerated:

Water main from Penitentiary and tanks.....	\$ 4,000 00
Completing sewer.....	6,000 00
Furnaces.....	10,000 00
Enlarging laundry and exchanging engine.....	1,000 00
Safe.....	250 00

Building for employes.....	4,000 00
Reconstruction of water closets.....	600 00
New furniture.....	500 00

Painting roof.....	500 00
Building kitchen.....	2,000 00

Total.....\$30,350 00

J. C. CARSON,
Chairman.

To the Senate and House of Representatives of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, most respectfully represent:

WHEREAS, The Port of Yaquina is situated on the Western coast of the State of Oregon about 120 miles south of the Columbia River, and is rapidly becoming a commercial outlet of great importance to the State of Oregon, and

WHEREAS, The recent completion of the western division of the Oregon Pacific Railroad between the Port of Yaquina and the great Willamette Valley, has rendered the early carrying out of their proposed extent of the works undertaken by the U. S. Engineers for improving the entrance to this harbor, a matter of great public utility and of common interest to the whole people of Western and Central Oregon, and

WHEREAS, There has already been appropriated by Congress for this work up to the present session, a sum of one hundred and fifty thousand dollars, and the engineer's office recommended the further

appropriation of one hundred and fifty thousand dollars for the year 1884, on account of the total sum of four hundred and sixty-five thousand dollars, the original estimate for completion of the entire work, and there has been already expended about one hundred and twenty thousand dollars; and.

WHEREAS, Sums exceeding one hundred and twenty-five thousand dollars have been received and credited to the port of Yaquina for import duties since the year 1883, being in excess of the total expenditure on the harbor improvement works up to this date;

Therefore, in order better to economize the ultimate amount of appropriation needed and also for the earlier completion of a work of national importance, much needed by the people of this State in the interest of their rapidly growing commerce, your memorialists pray that the full amount established by the U. S. engineer for the advantageous prosecution of this improvement may be appropriated for this purpose.

REPORT.

SENATE CHAMBER,
SALEM, Feb. 5th, 1885. }

Mr. President—Your Committee on Education, to whom was referred Senate Bill No. 135, beg leave to report that they have had

the same under consideration, and would respectfully report it back to the Senate, with the recommendation that it pass.

HENRY HALL,
Chairman.

Your Committee on Education desire to add the following reasons to their report, favoring the passage of the bill before them—S. B. No. 135:

First. The State Agricultural College has been for sixteen years connected with Corvallis, and located there, and has become largely identified with that place.

Second. The removal of the College at this time would tend to disorganize its workings and break up the classes, where good educational work is now being done.

Third. The central position of the College, and its accessibility from all parts of the State, is proved by the attendance there of an average of about one hundred students, who find in Corvallis pleasant and quiet homes, while attending their various classes.

Fourth. Corvallis, being thus centrally placed, is specially adapted for an experimental farm in agriculture. The farm of 35 acres, which will be attached to the new buildings of the College, offers exceptional facilities for these purposes. The situation is gently sloping, the soil of the upper portion is very fertile, and within its acreage are several varieties of subsoil. The experiments already made on it by the students under the guidance of the Professors of the College have proved its fitness for that purpose.

On motion of Mr. Cauthorn the report was adopted.

Mr. Cauthorn moved that S. B. No. 135 be considered engrossed and read a third time now under suspension of the rules.

On this motion the roll was called and the vote was.

Ayes—Messrs. Allen, Bilyeu, Burch, Cauthorn, Coleman, Davenport, Dorris, Emmitt, Haines, Hall, Hare, Hirsch, Hoult, Lee, Miller, Myers, Pennington, Prim, Reed, Rinehart, Shupe, Siglin, Simon, Weatherford, Williams, Voorhees, and Mr. President—27.

Nays—Messrs. Carson and Cartwright—2.

Absent Mr. Warren—1.

So the bill was read a third time and the question being, "Shall the bill pass?" the roll was called and the vote was:

Ayes—Messrs. Allen, Bilyeu, Burch, Cartwright, Cauthorn, Coleman, Davenport, Dorris, Haines, Hall, Hare, Hirsch, Hoult, Lee, Miller, Myers, Pennington, Prim, Reed, Rinehart, Shupe, Siglin, Simon, Weatherford, Voorhees, and Mr. President—26.

Nays—Messrs. Carson, Emmitt and Williams—3.

Absent—Mr. Warren—1.

So the bill passed, and the title of the bill stands as the title of the act.

Mr. Hall, chairman of the Committee on Education, submitted the following:

MINORITY REPORT.

SENATE CHAMBER,
SALEM, Feb. 7th, 1885. }

Mr. President—The undersigned member of your Committee on Counties, to whom was referred House Bill No. 4, begs leave to make his minority report, stating that he finds from evidence presented, that there is sufficient territory, population, and wealth lying east of

the John Day river to make two good counties within the boundaries of the counties asked for (Morrow and Whitman); and that that portion of Wasco county lying east of the John Day does not, of itself, embrace sufficient territory and population for a good county. That to cross the John Day in order to gain more territory would be exceedingly impracticable, owing to the great depth of the canyons of said river, making it, for the most part, impassable, and therefore unfit to be included in the body of a county; taking into consideration the many petitions, and the interest and convenience of most of the people immediately interested and with a view to making an equal and symmetrical division, I hereby offer the following amendment to that part of the bill fixing the western boundary of Morrow county:

In section 1, after the sentence, "thence due south on range line to the southeast corner of township 6 south, of range 29 east of the Willamette Meridian," strike out the remainder of the section and insert the following:

Thence due west on the township line between townships 6 and 7 south, to the range line between townships 24 and 25 east; thence north on said range line to the northeast corner of township 6 south, range 24 east; thence west on the north boundary of said township, to the northwest corner of the same; thence north, on the east boundary of range 23 east, to the center of the main channel of the Columbia river; thence up the center of the main channel of the Columbia river to the place of beginning.

Respectfully submitted,
JOHN EMMITT.

MINORITY REPORT.

SENATE CHAMBER,
SALEM, Feb. 7th, 1885. }

Mr. President—The undersigned member of your Committee on Counties, to whom was referred S. B. No. 28, creating the county of Whitman, begs leave to make this minority report, stating that he has examined the maps and petitions and heard the evidence on both sides, and concludes that there is sufficient territory on the east of the John Day river to create the counties of Whitman and Morrow, and after consulting the wishes of the people in the disputed territory between the proposed counties of Whitman and Morrow, as evidenced by their petitions, asking to be included in the proposed county of Whitman; and upon considering the geography of the country, which plainly shows that the commercial patronage of the people in the disputed territory will be with the people of Whitman and not of Morrow county; and with the view of establishing a permanent boundary line, making the two counties nearly equal in size, and more symmetrical in shape, I hereby recommend that the bill creating the county of Whitman do pass with the following amendment, making section 1 read thus:

Section 1. That all that portion of the State of Oregon embraced within the following boundary lines be and the same is hereby created and organized into a separate county by the name of Whitman, to-wit:

Beginning at a point in the middle of the Columbia river where the east line of range twenty-three east, Willamette meridian, crosses said river; from thence south along said east line of range twenty-three to the intersection of said east line with the northern boundary of township five south; thence east on said township line to the eastern boundary of range twenty-four east; thence south on said range line to its intersection with the boundary line of Grant county, Oregon; thence west between townships six and seven south, to the east line of range twenty-two east; thence south to the middle of the channel of the main body of the John Day river; thence down the center of the main channel of the John Day river to a point in the

middle of the Columbia river opposite the mouth of the John Day river; thence up the center of the main channel of the Columbia river to the place of beginning.

I also recommend that the word "Grant" in line one of section five be stricken out.

Respectfully submitted,

Governor of Nevada.

SENATE MEMORIAL AND JOINT RESOLUTION,

Relative to the continued coinage of silver.

To the Honorable, the Senate and House of Representatives of the United States, in Congress assembled:

Your memorialists, the Legislature of the State of Nevada, would respectfully represent as follows:

That according to the United States census for the year A. D. 1880, the aggregate population of the States of Nevada and Colorado, and the Territories of New Mexico, Arizona, Utah, Idaho and Montana amounted to six hundred and thirty-two thousand three hundred and thirty (632,330) inhabitants, and that the taxable property of said States and Territories in the year mentioned, amounted to one hundred and seventy-four million, two hundred and twenty-two thousand, seven hundred and twenty-nine (\$174,222,729) dollars.

That within all these States and Territories, since said census was taken, there has been an increase both in population and taxable property of at least twenty (20) per cent., thus aggregating at the present time a population of seven hundred and fifty-six thousand, seven hundred and ninety-six (756,796) inhabitants, and taxable property of the value of two hundred and nine millions, sixty-seven thousand, two hundred and seventy-four (\$209,067,274) dollars.

That the superficial area of these States and Territories covers an almost boundless extent of rugged and snow-clad mountains, and dry and arid deserts, rendering it the most undesirable and inhospitable portion of the United States; a section of country designated by our early geographers as the "Great American Desert."

That, attracted thither by its great subterranean wealth, a brave, manly and enterprising population first sought and occupied this portion of our common country, subdued the savage Indian, and demonstrated that it was not only rich in its mineral wealth, but was well adapted to the purpose of breeding and maintaining vast herds of horses and cattle.

That to-day at least ninety per cent. of the entire population of these States and Territories is entirely dependent upon the silver mining industry for a support and maintenance, and that ninety per cent. of the taxable property of the States and Territories is directly connected with and dependent upon the mining interest for its taxable value.

That, relying upon the pledge and faith of the United States Government to maintain and preserve the present standard value of sil-

ver, these people have devoted themselves almost exclusively to the silver mining interest.

Have by their perseverance and energy erected costly and expensive reduction works; have threaded the entire section with a network of railroads which required the levelling of mountains and the spanning of torrent rivers.

Have built comfortable homes and dwellings. Have, by their various improvements, added millions of dollars to the taxable property of the nation; and have, within eight years past, added over three hundred and forty million dollars to the wealth of the world.

That these people, in view of the great hardships they have encountered in their struggle to reclaim this mountainous and desert country, are entitled to some consideration from the Congress of the United States.

That the suspension of the coinage of silver at this time by the United States Government would effectually deprive all these people of the means of earning an honest living, render them houseless and homeless and entirely destroy the value of the property they have built up.

That political economy has demonstrated that values of property are determined by the *quantum* of gold and silver in circulation.

The greater quantity of these metals in circulation the greater revenue will the General Government and the several State governments receive, and, should the coinage of silver be stopped or in any manner curtailed, it will necessarily deprive the government of its revenue to that extent.

That the most persistent advocates of mono-metalism, with all their sophistry and special pleadings, have utterly failed to prove that the coinage of silver, under the act of Congress of February 28, 1878, has in any wise proved detrimental to the best interests of the whole nation; wherefore,

Resolved by the Senate, the Assembly concurring: .

That our Senators in Congress be instructed, and our Representative be requested to urge upon Congress to enact such laws as will provide for the free and unlimited coinage of silver, and restore it to its former relative value with gold.

Resolved, That his excellency, the Governor, be requested to immediately forward a copy of this Memorial and Resolution to each of our Senators and Representative in Congress, and also, a copy to the Governor of each of the silver producing States and Territories of the Union, and ask of them their earnest and hearty co operation in

our endeavors to avert the calamity that would follow the suspension of silver coinage.

Resolved, That in view of the great peril which is now threatening our chief industry, by the suspension of silver coinage, by virtue of laws that may be enacted by the Congress of the United States, we invoke the people of the State of Nevada, regardless of former or present political affiliations, to assemble in their respective mining towns and districts on the 18th day of January, 1885, and then and there elect suitable delegates to represent our State in the Colorado Silver Convention, which convenes in the city of Denver on the 28th day of January, 1885. and take such other action as may be deemed necessary to effect a thorough organization of the friends of silver.

Secretary of the Senate.
E. T. GEORGE,
Speaker of the Assembly.
GEORGE H. MORRISON,

Mr. Cauthorn, chairman of the committee appointed to visit and report as to the condition and wants of the State School for the Blind, submitted the following:

REPORT.

SENATE CHAMBER,

SALEM, Feb. 10th, 1885. }

Mr. President---We, your committee, upon whom has devolved the pleasing duty of visiting the School for the Blind, beg leave to submit the following report touching the general condition of the school, its practical working, literary and musical departments, etc.

BUILDINGS.

While the buildings now occupied by the school is the only suitable one that could be secured in the city for the purpose, it is the opinion of the committee that the Legislature should at this session, make permanent provision for the blind, by the purchase of suitable grounds, and erecting thereon a building or buildings which will accommodate the literary as well as the mechanical and industrial departments.

This can be done at moderate cost, and will in the long run be the best economy.

INSTRUCTION.

The work of instructing the blind is a most difficult task, as it should be remembered that the instruction given in such branches as English Grammar, History, Geography, etc., is chiefly oral, and

therefore requires much time and patience. Having forever lost one of the chief aids in the acquirement of knowledge, they are forever shut out from all the ordinary means of physical training. Again, their great physical infirmity begets an extreme diffidence and sensitiveness, which can only be overcome by the careful and attentive teacher. Again, the blind pupil leaves his home and parents to enter the school, with a trembling uncertainty of receiving that care and attention which he has always received from indulgent friends.

From these and other considerations, it will be seen that there is no class of persons so dependent in life as the blind. General provision has been made for this unfortunate class in every State in the Union and many of the Territories. This is a fact worthy of consideration, and it is a tribute to the broad philanthropy of the American people.

The work which the State has undertaken of educating its blind is deserving of the support and commendation of all good citizens. In this connection we give below a list of the several States making direct appropriation during the last year for the current expenses of schools for the blind; and also the value of grounds, buildings and apparatus owned by the States in fee simple:

NAMES.	Number of pupils.	Value of grounds, buildings, apparatus, owned by the States.	Total receipts from State appropriations during last y'r for current expenses.
Alabama	20	\$ 18,800
Arkansas	44	\$ 20,000	11,500
Georgia	61	75,000	22,300
Illinois	128	157,500	62,600
Indiana	128	354,600	29,200
Iowa	141	250,000	31,500
Kansas	53	100,000	41,900
Kentucky	77	100,000	28,800
Louisiana	23	30,000	10,000
Maryland	83	339,400	25,100
Massachusetts	123	314,500	79,300
Michigan	63	105,000	46,100
Mississippi	35	45,000	10,000
Missouri	90	250,000	28,000
New York	382	732,200	133,800
North Carolina	60	38,000
Ohio	180	500,000	34,800
Pennsylvania	170	187,000	59,700
Tennessee	58	110,000	60,300
Texas	84	75,000	18,710

In the consideration of the above exhibit, it must be remembered that several of these schools have farms whose annual products are a material aid in the support of the students.

INDUSTRIAL DEPARTMENT.

This department has been organized in part only. Its necessities are apparent to the Principal of the school, for want of the requisite apparatus, tools, material, etc. This department is far from complete. The girls are taught sewing, knitting, crochet-work and the use of the sewing machine. In the old established schools for the blind in the Eastern States, instruction is given to boys in the following trades: Chair bottoming, shoe-making, basket work, broom-making, mattress-making, coopering, tailoring, carpet-weaving and brush-making. When the time comes that these industrial pursuits can be practically taught, then, and then only, can it be said that the school is fully equipped. Then trades will constitute one of the most important features in the education of the blind. Of the many unfortunate

young persons in this State who are blind, there are but few, who, having obtained a practical, mental and industrial education, would not be able to make their own way through life by engaging in some honorable pursuit.

BRANCHES TAUGHT.

The regular literary course of study adopted is as follows:

Orthography, reading and writing taught by the New York Point System, English grammar, natural philosophy, arithmetic, mental and written, physiology, modern history, composition, and letter writing, music, vocal and instrumental.

RECOMMENDATIONS.

We would recommend that sufficient appropriation be made to purchase tangible apparatus, such as dissected maps of physical geography, philosophical apparatus and other appliances. These appliances are absolutely necessary, and should be furnished the school at the earliest possible day. In addition to this, there should be an industrial department established as soon as practicable. This department should contain all necessary appliances for teaching plain and fancy sewing and knitting, and a shop should be provided for the boys, and the necessary tools obtained for carpenter work, broom-making, mattress-making, coopering, etc.

For all of the above purposes, we would earnestly recommend a sum not less than fifteen hundred dollars.

IN CLOSING.

We are pleased to report that the school is under most excellent management. Supt. C. E. Moore, and his assistant teachers, are doing a noble work that must be seen to be appreciated. It was highly gratifying to your committee to observe the wonderful facility and quick preception of the blind students under the instruction of their kind teachers. We trust that each and every member of the Legislature will visit the school before the close of the session, and that some public opportunity may be granted the members for this purpose.

Mr. Hare moved that the special order of this afternoon be postponed for ten minutes, which motion prevailed.

The question pending at adjournment was the adoption of the amendment of Mr. Haines to H. B. No. 14, which was adopted.

S. B. No. 68, being the special order for this afternoon at 2 o'clock, was taken up.

Mr. Miller submitted the following minority report of the Committee on Railroads, to S. B. No. 68:

MINORITY REPORT.

The undersigned members of the Committee on Railroads, beg leave to report the following:

The Oregon Railway Company (limited), having leased its lines in 1881 to the O. R. & N Co., the latter, without the knowledge of the former, and in violation of the lease, made a sub-contract with the O. & C. R. R., whereby the operation of the Oregonian line was made

subservient to the interests of the O. & C. R. R. The connection between the O & C. and the O. R. & N. Co., being now at an end, the O. R. & N. Co. has no longer any motive for this policy, but it has, in the meantime, repudiated the lease. Until this question is finally settled by decision or compromise, neither company is likely to move in the matter of extending the line to Portland; but when the question is settled, the company charged with the road must, as a matter of necessity, carry it into Portland. The road, as it now is, cannot be held without loss, unless extended.

It is at this time, when the certainty of extension is made manifest, that a new allied corporation comes forward with proposals to build this extension.

Were this shown to be an honest, *bona fide* enterprise, the Oregonian company would welcome it.

Their directors would rejoice to see the gap between Dundee and Portland filled up. But there is nothing to show that this is an honest enterprise. Its members and officers are unknown. So far as the evidence has gone, the scheme is a mere attempt to secure from the Legislature an advantage which will enable the projectors to make terms with the company owning or operating the narrow gauge.

Proposals have been made on behalf of the Portland and Willamette Valley Co. to the Oregonian Company for the purchase of the latter's property and rights; but when questioned as to the responsibility and guarantees of the Portland and Willamette Company, the agent could give no answer.

There have been schemes of the same kind in the previous operations of the narrow gauge.

Subscriptions were collected, supposed to be in aid of that undertaking, but which did not reach the Oregonian Company.

The very land which had been donated by farmers for station purposes, were intercepted and had to be paid for by the company in cash.

Any grant or privilege given by the Legislature is liable to be similarly abused, unless the names of the promoters of the enterprise are a guarantee for honesty, unless such guarantees are given, every benefit asked for in this bill is likely to be turned to speculative uses. It will be used as a means of making money out of the company really interested in the making of the road, and so add to the cost of the road when made.

TO RECAPITULATE.

1st. The promoters of the bill give no information as to the capital invested or the persons responsible.

2d. The company owning the narrow guage, while welcoming any honest, genuine undertaking to build this part of the road, has no connection with, or knowledge of this company, nor can it obtain the information it has asked for on that head.

3d. The circumstances are such as to make it probable that this is a mere speculation to make profit to its promoters out of the temporary embarrassment of the company interested.

4th. There is reason to believe that some of these promoters have before been concerned in similar schemes whereby benefits intended to aid railroad enterprise have been turned to their own profit.

5th. There is great danger that the benefits asked for may be used in this way, and so add to the cost of the extension.

6th. The extension must be built anyhow by parties in interest, and without any question of levee grounds.

H. B. MILLER.

Mr. Lee moved that the first amendment, as reported by the majority of the committee, be adopted, which motion prevailed.

Mr. Lee moved to adopt the second amendment, which motion prevailed.

Mr. Lee moved to adopt the third amendment, which motion prevailed.

Mr. Lee moved to adopt the fourth amendment.

Pending this question Mr. Simon submitted the following, and moved that the same be substituted in lieu of the fourth amendment reported by the Committee on Railroads:

"Provided, however, That before any title to the premises herein described is vested in said corporation, the said Portland and Willamette Valley Railway Company shall, within six months from the passage of this act, commence and institute in the proper court an action against the city of Portland to appropriate said premises in accordance with title 2 of chapter 7 of the Miscellaneous Laws of Oregon, and prosecute the same to final judgment, and pay into court for the use of the city of Portland the damages assessed by the jury for such appropriation."

On this question the ayes and nays were demanded by Messrs. Hare and Simon.

So the roll was called, and the vote was as follows.

Ayes—Messrs. Carson, Cauthorn, Emmitt, Haines, Hall, Hirsch, Miller, Pennington, Prim, Reed, Shupe, Simon, Williams and Mr. President—14.

Nays—Messrs. Allen, Bilyeu, Burch, Cartwright, Coleman, Dav-

enport, Dorris, Hare, Hoult, Lee, Myers, Rinehart, Siglin, Weatherford and Voorhees—15.

Absent—Mr. Warren—1.

So the motion was lost.

Mr. Simon moved to strike out the following words in the fourth amendment reported by the Committee on Railroads, as follows:

First. To re-pay to the city of Portland the sum of twenty-five hundred dollars, advanced and paid by it to Stephen Coffin, in 1871, after the levee was dedicated to the public.

Second. To re-pay to the city of Portland whatever other sum or sums of money it has from time to time expended in, for, or upon the public levee, the use of which is hereinafter granted.

Section 22. The Secretary of State shall annually, on or before the first day of March, furnish at the expense of the State to the County Clerks of the several counties, blank lists, or inventories, sufficient in number to meet the requirements of the Assessors of each county, and in the most convenient form, with suitable interrogatories, to contain, when filled, a full statement of all taxable property, real and personal, of each taxpayer in said county.

Said blanks shall be so formulated by the Secretary of State as to require, under oath printed thereon, from each person and corporation such full information as to each class and item of his taxable property, real and personal, as will enable the Assessor, after a personal examination of all visible property to appraise all such property at its true value in money. Said blanks shall also contain an interrogatory for a statement of the amount of stocks, bonds, or other securities claimed to be exempt from taxation under the laws of this State, or the United States, owned by, or held for its or their benefit.

Section 23. Said blanks shall also contain, when filed, a statement of debts actually due from said taxpayers on the first Monday of April, to the amount of deduction claimed, and no deduction shall be made in the list of any person by reason of debts owing by him, unless such statement includes the names and place of residence of each person or firm to whom he is so indebted and the amount so

owing by him to each person or firm; and from any deduction allowed by Assessor on account of debts there shall be deducted the amount of United States government bonds and other non-taxable securities owned by the taxpayer claiming such deduction, and all debts due him from solvent debtors.

Section 24. *Provided*, That any person or corporation shall be deemed as having complied with the provisions of this act, requiring a statement of debts and credits, who shall have furnished the Assessor a sworn statement and list of all debtors and creditors with the respective amounts, and the said Assessor shall proceed to assess such accounts or notes, except notes and accounts secured by mortgage, and place the aggregate amount in the assessment roll.

The said list thus furnished shall be kept in a safe place in the County Clerk's office, and subject only to the inspection of the Assessors and the Prosecuting Attorney for said county.

Section 25. That the statement of the notes and accounts contained in all inventories or lists, shall be presumptive evidence in all courts in this State as to its correctness, and if any person shall omit from such statement any solvent promissory note or notes, or accounts, such omission shall be presumptive evidence that the same has been paid; disputable only by showing that the same has been omitted by mistake, and not with intent to defraud the revenue.

Section 26. The Assessors to whom such blanks are furnished shall distribute one copy to each person in his precinct liable to taxation in the county; and if any person so liable fails to receive such blank list or inventory in the manner aforesaid, he shall, if he resides in the county, apply to and receive from the Assessor a copy of such blank on or before the first Monday of June.

Section 27. In case of corporations, the officer on whom it is by law required that writs shall be served, shall procure a copy of the inventory and such corporation shall fill out such inventory by its President or other principal officer. In case of property belonging to a trustee, estates of deceased persons and guardians, and of property and estate not in the care or possession of the owners, the inventory shall be procured and filled by the person to whom the property is by law taxable.

Section 29. The Assessors of each county shall take up such inventories, and make such personal examination of all visible property as will enable him to appraise it at its true value in money. In the case of each inventory which, in the opinion of the Assessor, contains a true, full, and correct statement of all the items of property for which the person or corporation filling out such inventory is tax-

able, he shall make an appraisal of such property according to law, and complete the list of such person or corporation.

Section 30. If a person or corporation wilfully omits to make, swear to, and deliver said inventory, or to answer any interrogatory therein, as by this act required, or makes a false answer or statement therein, or if the Assessors have sufficient reason to believe that an inventory does not contain a true, full, and correct statement of the taxable property of the person or corporation filling out such inventory according to the requirements of this act, then said Assessors shall ascertain, as best they can, the amount of taxable property of such person or corporation, shall appraise the same at its value in money, and double the sum so obtained shall be the list upon which the taxes of such person or corporation shall be assessed.

Section 31. If a taxpayer whose list has been made up by the Assessor, under the provisions of the preceding section, appeals from the action of the Assessor to the Board of Equalization, said Board shall have no power to grant him relief, if it appears to them that he has wilfully violated any of the provisions of this act.

Section 32. A person who wilfully swears falsely, in violation of any of the provisions of this act, shall be guilty of perjury and punished accordingly.

Section 33. If any Assessor accepts the inventory of a person, not made out and sworn to as provided in this act, or neglects or refuses to appraise and set in the list, each item, as described in each inventory, filled up conformably to the provisions of this act, he shall, for each inventory so received, and for each such refusal or neglect, forfeit to the county where he resides the sum of two hundred dollars, and any tax-payer in such county, in the name of the State, may sue and recover such penalty for the benefit of such county.

Section 34. The Assessor of each county shall, as soon as their annual assessments are completed, return the personal list of all taxpayers to the County Clerk, who shall arrange the list in alphabetical order, by precincts, for the inspection of tax-payers of such county.

Also amend the number of section 22, so as to read section 35.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON,
EXECUTIVE OFFICE,
SALEM, Feb. 13th, 1885. }

To the Honorable, the President of the Senate:

I am requested by his excellency, the Governor, to inclose herewith, for the consideration of the Senate, the accompanying communication from the National Board, relative to the adoption of preventive measures against the approach of Asiatic cholera.

CHAS. B. MOORES,
Private Secretary.

The communication is as follows:

NATIONAL BOARD OF HEALTH,
WASHINGTON, D. C., Nov. 10th, 1884. }

SIR: The second section of the act of Congress, approved March 3, 1879, (20 stat. at large, p. 484, chap. 202), requires that the National Board of Health shall advise the several departments of the government, the executives of the several States, and the Commission of the District of Columbia, on all matters submitted by them or whenever in the opinion of the board, such advice may tend to the preservation and improvement of the public health.

In the execution of this provision of law, I am directed to advise your Excellency that the presence of Asiatic cholera in epidemic form in Europe is a constant menace to the people of this country. The disease has pressed steadily westward during the past two years, carrying wide-spread desolation in its path, until now it has found a lodgment in European ports whence more than one of the epidemics from which we have heretofore suffered, have been brought to our shores.

With our vastly increased intercourse with foreign powers and facilities for communication, the disease may at any moment make its appearance in this country. It is profoundly to be hoped that we

may escape another visitation of this scourge, but following the history of past epidemics we can only hope for exemption from its attack, or should it gain a foot hold, for a mitigation of the suffering which necessarily attends its progress by the most prompt and efficient sanitary service.

No portion of any State should be left unguarded, for our facilities for both local and inter-State communication afford ample means for carrying the poison far and wide throughout the land.

In the absence of a sanitary service at any point, that point may, in the event of the appearance of cholera, become the center from which the infection may be spread to other portions of the State.

In view of the imminent danger which threatens our people, and the responsibilities resting upon the rulers and all in high official station, your excellency is respectfully and earnestly requested to call the attention of the Legislature to this subject, and to urge the necessity of appropriate legislation for providing the means whereby the most thorough sanitary service may be immediately organized.

Much preliminary work requires to be done in many portions of every State to place the country in good sanitary condition, and to this end every organized community should be provided with a competent Board of Health, and the State with a State Board supplied with every facility for aiding and directing the local authorities in their sanitary work.

By the prompt adoption of such measures we may hope, if not wholly to escape an invasion of this dread disease, to be able at least to limit its ravages to the places where it first makes its appearance.

I transmit herewith a copy of the rules and regulations framed by this board, and recommended for adoption by State and local boards of health, to be enforced in the event of the prevalence of infectious and contagious disease.

Assuring you of the deep interest taken by this board in all efforts looking to the preservation and improvement of the public health, as also of its desire to co-operate in such efforts in so far as it lawfully may, I have the honor to remain, very respectfully,

W. P. DUNWOODY,
Secretary.

His Excellency,
The Governor,
Salem, Oregon.

On motion of Mr. Lee, the communication from the National

Board of Health was referred to the Committee on Education with leave to report at any time by bill or otherwise.

MESSAGE FROM THE HOUSE.

REPORT.

SENATE CHAMBER,

SALEM, Feb. 13th, 1885. }

Mr. President—Your special committee appointed to visit the School for Deaf Mutes, beg leave to report, that, in company with the House committee appointed for the same purpose, they have visited the school and find the management excellent in every respect.

We find that the money appropriated for the purposes of the institution has been carefully accounted for and economically expended.

The method of book-keeping employed is simple and efficient.

The different departments visited were as neat and comfortable as they could be in the buildings as they now stand.

The school is in need of funds to enlarge some of its buildings and improve others, and your Committee is of the opinion that the State can spend money in no better way than in providing for the necessities of this class of its unfortunate wards.

We recommend that an appropriation be made of not less than two thousand dollars to be expended in enlarging and repairing the buildings, making this appropriation immediately available.

And we further recommend an appropriation of five thousand dollars a year to meet the running expenses of the school, made payable in quarterly installments to the Board of Directors of said institution.

All of which is respectfully submitted.

Mr. Voorhees, chairman of the committee to visit the Agricultural College, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Feb. 14th, 1885. }

Mr. President—Your committee appointed to visit the State Agricultural College at Corvallis, have discharged that duty, and would respectfully report:

That the Corvallis College building is not sufficient to meet the wants of an Agricultural School. The present college building is located too far from the college farm to be of practical use to the students.

The experiments being carried on by the school consist of a few plots of grasses put out the last season.

The Professor of Agriculture is doing all that the limited means at his command will enable him to do.

While the President and the other professors are doing good work we did not consider it the duty of your committee to make so critical an examination of their work, and consequently spent a greater part

of our time in the Agricultural department, and found as good work being done as was possible with the means at their command.

The farm is one-half mile distant, and contains thirty-five acres, deeded to trustees of Corvallis College in trust for the agricultural department, valued at \$10,000.

Forty-five students have State appointments.

We found that the Faculty of the College and the Board of Regents are composed of men of different religious and political views, and learned from the students that nothing sectarian or partisan was taught in the school.

And your committee would recommend that the school be separated from the church at the earliest moment, believing that by so doing the efficiency of the Agricultural College can be increased and many of its obstacles removed.

SENATE JOINT MEMORIAL NO. 5.

To the Honorable Congress of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon at its regular session, would respectfully represent that,

WHEREAS, Some two years since, the fine steam collier, Tacoma, was wrecked upon our coast, near to and within three miles of the mouth of the Umpqua River, whereby several persons lost their lives, and much misery was entailed on many others; that thereafter, and over one year since, a new tug boat belonging to Simpson Bros., while entering and ascending said river, ran aground on a sunken ledge of rocks, which lie in the apparent channel of said Umpqua River, but by timely assistance was rescued without serious damage; and that,

WHEREAS, There is a good channel, of at least twenty feet in depth, from the bar of said Umpqua River to the town of Gardiner, some ten miles from said bar, and the lumber trade from this locality is a very important industry; therefore be it

Resolved, That said Umpqua river be buoyed from the said bar up as far as the town of Gardiner in said river in order to prevent the recurrence of disasters similar to those hereinbefore mentioned and which have every chance of a disastrous ending, owing to the fact that the channel of the river at the present time is indistinguishable to strange shipping, and

That our Senators and Representative in Congress be hereby solicited to use all honorable means to secure an appropriation of money by the General Government sufficient to provide for the establishment and maintenance of buoys in the said river, in the manner hereinbefore alluded to, and also for the purpose of procuring a site for, and of constructing a light house at or near the mouth of said Umpqua river.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON,
EXECUTIVE OFFICE,
SALEM, Feb. 17th, 1885. }

To the Honorable the President of the Senate:

I am requested by his excellency, the Governor, to forward for the consideration of the Senate, the enclosed communication from Hon. Geo. B. Loring, Commissioner of Agriculture, together with the accompanying memorial of the American Forestry Congress.

CHAS. B. MOORES,
Private Secretary.

COMMUNICATION.

DEPARTMENT OF AGRICULTURE,
WASHINGTON, D. C., Feb. 25th, 1884. }

SIR: I forward herewith a memorial drawn up by a committee of the American Forestry Congress to be submitted to the legislatures of the various states through the executive.

I have adopted it as part of the work of the U. S. Department of Agriculture as an effective mode of presenting my own views to the State authorities, and I would respectfully call your attention to the important subject of the memorial. I have the honor to be, respectfully,

Your obedient servant,

GEO. B. LORING,
Commissioner of Agriculture.

HON. ZENAS F. MOODY,
Governor, Oregon.

U. S. DEPARTMENT OF AGRICULTURE,
WASHINGTON, D. C., Feb. 12th, 1884. }

SIR: I submit the accompanying paper, which has been prepared

as a memorial to the Governors and legislatures of the various States in the Union by a convention of those interested in forestry, assembled at St. Paul, Minnesota, on the 9th day of August, 1883, for your consideration, and as a part of the work of the Forestry Division in the U. S. Department of Agriculture.

The suggestions it contains are of great value, and should be laid, not only before the authorities of each State, but before the community generally. I have adopted it with the assurance that it will meet your views and with the hope that it will influence the action of the States on the subject with which it deals.

Truly and respectfully yours,

N. H. EGGLESTON,

Chief of Forestry Division.

HON. GEO. B. LORING,

Commissioner of Agriculture.

The American Forestry Congress would respectfully invite the attention of the community to the importance of giving early attention to measures tending to the maintenance of our forest supplies.

The very important relations that exist between a due proportion of woodlands and our agricultural welfare, resulting from their influence upon climate, their protection from drying winds, and their effect in the equalization of water supply for navigation, hydraulic power and the use of cities and towns, are scarcely less worthy of serious attention, and present questions that may properly claim the notice of a legislative body.

It is well known that in every country upon the continent in Europe, systems of forest management, originating from necessity, have grown up, and that codes and regulations for protection, working and restoration have been devised and matured as experience led, until they have become, in a great degree, adapted to the conditions and wants of their inhabitants and to the requirements of their governments, in matter of timber supply.

Although from the differences that exist between the American States and countries of Europe, as well with respect to the tenure of the land, as the structure of the laws which would prevent any one of these European Codes of Forestry from being applied in America, still there are strong reasons for urging the adoption of carefully devised measures for promoting the maintenance and renewal of our forest supplies.

Since in the States and territories of the United States, as well as in the provinces of Canada, most of the settled portions of the country belong in fee simple to private owners, who are usually the

actual occupants, and since the entire care and cost of management of the woodland upon these estates must devolve upon these owners, it is evident that there can be no more effectual means devised for promoting this object than by the diffusion of correct ideas among the owners of these lands, with reference to the forest interests of the country.

In the case of fisheries, another element of national wealth in which our citizens have a great interest, although the government itself can scarcely be said to have property, it has been found that great public benefits have been derived from the information obtained and disseminated through the agency of State fishery commissions.

The investigations made by the Government in this matter have been far beyond the means of individual enterprise, or even of associated private effort, and the operations of breeding and stocking distant waters with improved species, protection, maintenance and restoration which have been carried on, in a large degree, under the patronage and intelligent direction and advice of State Commissioners appointed for this purpose, have greatly enhanced the value of our inland fisheries, and promise still greater benefits in the future.

These commissions exist in all the principal States of the American Union and in Canada, and their benefits are realized more and more every year, as we learn of their results.

In the case of woodlands we find in matters of public policy and the promotion of the common interest a strong resemblance with the case above cited. Information is to be collected, investigations are to be made upon questions before unknown, the introduction of new species is to be encouraged, improved and economical methods are to be made known, and the public interest is to be awakened and maintained.

Although it would be obviously inexpedient and improper to confer authority upon a Commission, with respect to the control and management of private property, unless in exceptional cases where a public interest was concerned, there are many ways in which it could very greatly promote the public welfare, among which we may specify the following:

1. It might institute and conduct experimental stations, either upon lands specially acquired for the purpose or with the concurrence of institutions of learning, where facilities exist and the conditions are favorable. We would especially mention the colleges that have been aided or established by public grants as proper places for aiding in these experiments. The co-operation of individuals might doubtless be secured in many cases. These experiments should embrace,

as well, questions of culture and management for the discovery of best methods as matters of scientific interest, including the study of the local climate in its relations to forestry.

2. It might establish nurseries, for the supply at cost, or otherwise, of approved species of young trees, especial care being taken to offer those only that afford the best prospect of success and the most useful product. These young trees (or in some cases tree seeds) should be accompanied by plain and simple directions for their care and management, and the persons receiving them should be requested to report the result.

3. It might stimulate competition by the offer of prizes for plantations remarkable for their extent and excellence, or for success in overcoming difficulties in planting.

4. It might reward the authors of approved essays, tending to make known improved methods, or to awaken an intelligent interest in forestry, or to disseminate useful information upon any subject therein tending to promote the general welfare.

5. It might collect statistical and scientific facts having reference to forestry, in its various economic and scientific relation, with the view of furnishing information in answer to private inquiry, or by way of public reports.

6. It might promote an interest in the subject by the holding of public meetings for addresses and discussions upon subjects relating to forestry and rural economy.

7. It might establish at its central office a reference library and collections for illustrating its special subject, and it might very materially aid by advice and otherwise in the formation of similar means of reference and information, at institutions of learning and other agencies of public utility.

8. And finally, it could carefully study the subject of forestry as it may grow in importance with the view of recommending for legislative action such measures as may be deemed proper for meeting the wants of the country in this matter as it comes to be better understood. It is presumed that intelligent, capable and public spirited citizens might readily be found in every State, who would be willing without pay, to give reasonable attention to this subject, by attending stated meetings of a board---their actual expenses being paid. With a capable and intelligent secretary, devoting his whole time to his duties, upon reasonable pay, we might confidently expect that such a board would in due time become a center of influence, and an important agency for good: sustaining the expectations that gave it

being, and abundantly repaying its cost, in an advancement of the public welfare.

The foregoing communications were read, and on motion of Mr. Cauthorn, referred to the Committee on Agriculture with leave to report at any time.

COMMUNICATION FROM THE GOVERNOR.

STATE OF OREGON,
EXECUTIVE OFFICE,
SALEM, Feb. 16th, 1885. }

To the Honorable the President of the Senate:

I am requested by his excellency, the Governor, to forward for the consideration of the Senate, the accompanying communications from Gen. C. B. Norton, Secretary of the American Exhibition to be held in London in 1886.

There are also enclosed herewith, certain circulars and pamphlets relating to said exhibition, for the consideration of such committee as may be designated by your honorable body, in case any action thereon is considered proper or expedient.

CHAS. B. MOORES,
Private Secretary.

CITY OFFICES,
7 POULTRY, LONDON, E. C., August 12th, 1884. }

DEAR SIR:—I have the honor to invite your perusal of the enclosed documents as evidence of the success likely to attend the proposed American Exhibition (London, 1886), to which your attention has already been called.

An opportunity is now offered which should be taken advantage of by every State and Territory in the Union.

1. By making an exhibit of its products and resources, by means of specimens of minerals, stones, marbles, grains, fruits, etc.

2. By models and views of public works of all kinds, and educational methods; and

3. By the appointment of some competent person as commissioner to represent and look after the interests of his State.

I am yours with respect,

C. B. NORTON,
Secretary.

To the Hon. ZENAS F. MOODY,
Governor of Oregon.
Salem.

THE AMERICAN EXHIBITION.

LONDON, 1886.

CITY OFFICES,

7 POULTRY, LONDON, E. C., January 2d, 1885. }

SIR: — I have the honor to call your attention to certain pamphlets which have been forwarded to your address, having reference to the American Exhibition to take place in this city, commencing May 1st, 1886. I am advised that the resolution offered in the Senate in connection with the Government exhibit, has been referred to the Committee on Foreign Relations.

With a desire to inform you of the importance given to this undertaking by the official representatives of the United States in Europe, I beg leave to enclose herewith additional letters from United States Consuls, received since the publication of the pamphlet now in your hands.

Up to the present date, the entire labor and expense connected with the preliminary work of this great enterprise has been undertaken and carried out by private hands.

I am happy to say that so far as the future is concerned, I have the guarantee of responsible American citizens for all expenses.

There is no question of profit in the enterprise, until it shall have been proved a perfect success.

The public are not asked for financial aid, and the only co-operation requisite on the part of the United States Government, is simply that they shall assure the expenses connected with the transfer of their own exhibits, now in New Orleans, at the close of that exhibition, to London, and their proper arrangement and classification in the building.

The evidence presented in the pamphlets already respectfully submitted for your consideration seems to me of such a character as to warrant a national recognition on the part of Congress, of the strongest kind.

We are invited by the people of Great Britain, we are offered the hand of friendship by the most prominent men of that country, and our own manufacturers and artists are ready to send the very best of their productions; it would therefore seem but reasonable that the Congress of the United States should, in the interest of the whole nation, recognize the good feeling expressed by the people of our fatherland, and avail itself of an opportunity such as is not likely to occur again within the century, of increasing our export trade, which the introduction of our manufactures must inevitably bring about.

May I ask you, as a member of the General Council of the American Exhibition, to kindly co-operate in so far as to convey an expression of your own opinion upon the subject to any Senator or Member of Congress.

I am, with respect, your obedient servant,

C. B. NORTON,

Secretary.

The communications were read, and on motion of Mr. Weatherford, were referred to the Committee on Commerce, with leave to report at any time.

WHEREAS, There is grave doubts in the minds of your committee as to whether the Board of Swamp Land Commissioners have followed the law or acted equitable in issuing certificates to hundreds of thousands of acres of pretended swamp lands, whereby the settlement and improvement of the country and the prosperity of the State has been and will be retarded for years; therefore, be it

Resolved by the Senate, the House concurring:

Legislature, and may make their report and file the same with the Secretary of State, and he shall cause to be printed immediately thereafter 500 copies thereof and forward one copy thereof to each of the members of this Legislature, and furnish one copy to each of the members of the next Legislature on the first day of the term thereof, and to each of the State officers.

REPORT.

SENATE CHAMBER,
SALEM. Feb. 19th, 1885. }

Mr. President—We, your committee appointed by concurrent resolution of the Senate and House of Representatives to examine the books and accounts of the State Treasurer, beg to submit the following report:

Having, as authorized by your resolution, employed a competent accountant, the investigation of said books and accounts was conducted by him, with such personal assistance from the committee as they were able to spare from their other business.

First. Every receipt of the Treasurer, during the past two fiscal years has been compared with the duplicate receipt filed with the Secretary of State and carefully examined and checked on the Treasurer's report. The total amount of receipts, as shown by the Treasurer's books, has been found to correspond with the amount charged to him by the Secretary of State, and the balances reported to the Legislature of 1882 have been found to be correctly brought forward, and the present existing balances in the various funds accurately stated.

Second. The disbursements as reported by the Treasurer, have been verified by detailed examination of warrants produced by the State Treasurer and each voucher found correct in every particular.

Third. The balances now on hand as shown by said Treasurer's report, together with balances reported to the Legislative Assembly of 1882 have been compared with the balances as shown by the ledger of the State Treasurer and found to correspond.

Fourth. The totals of the several funds, both as to the receipts and disbursements, have been carefully examined and verified by this committee.

Fifth. The bonds reported as having been redeemed, together with coupons paid on account of said bonds have been separately examined and found correctly reported.

Sixth. The loans on accounts of the various trust funds, and every note and mortgage securing the same have been carefully examined, and have been found secure in every particular.

Seventh. The bonds deposited as security by the Foreign Insurance and Express corporations have been produced and examined by your committee and are all in the safe custody of the Treasurer.

We find the books and accounts of the State Treasurer neatly and correctly kept, and in all respects to correspond with his printed report, with the exception of a few typographical errors in the same.

We recommend the payment of James Walton, the accountant employed by us, at the rate of five dollars per diem.

Respectfully submitted,

T. E. CAUTHORN,

F. C. REED,

To the Honorable the Senate and House of Representatives of the United States in Congress Assembled:

Your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent that the Federal offices located at Roseburg and Oregon City, namely, the Land Offices, the Signal Service and Postoffice, occupy private buildings, the rental of which amounts to about one thousand dollars per annum; that the erection by the Government of a suitable fire-proof building for said offices would be in the direction of economy and retrenchment; that the rent saved thereby and revenue derived from leasing a portion of such buildings would ultimately repay the government for the sum expended;

Therefore, we pray your honorable body to appropriate the sum of fifty thousand dollars, or so much thereof as may be necessary to purchase an eligible site and erect thereon suitable buildings for the purpose above mentioned.

That the Secretary of State be directed to notify the various counties which are delinquent in their State taxes to pay the same, or to show cause why the same is not paid, and in case of the failure of any county or counties to pay the same, or any part thereof, before the next session of the Legislature, it shall be the duty of the

Committee.

On motion of Mr. Myers, the report was adopted.

Mr. Simon, chairman of the Committee on Elections, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Feb. 19th, 1885. }

Mr. President—Your Committee on Elections, to whom was referred the election contest between Lee Laughlin and C. H. Burch, for a seat in this body, beg leave to report that they have had the same under consideration, and that the trial and investigation has been prosecuted under considerable difficulty, owing to the limited time they have had to devote to it, and the pressure of other duties pertaining to this session.

The committee have examined over 125 witnesses, and the testimony reduced to writing numbers some 500 pages and 800 folios.

From the testimony, it appears that at the general election held in the county of Yamhill on the first Monday in June, 1884, Hon. C. H. Burch and Hon. Lee Laughlin were rival candidates for the office of State Senator in that county, and at said election the former received, as certified by the Judges and Clerks, 977 votes, and the latter 976 votes for said office; that the contestant and respondent respectively, challenged a large number of votes cast for said candidates, and your committee have ascertained that there were a number of illegal votes cast for each of said parties, but upon careful consideration of the evidence, they are unable to conclude that there were more cast for one party than for the other.

There is considerable conflict of testimony, and your committee are unable to arrive at any conclusion that would place the matter beyond question.

There having been an allotment between the Senators from Yamhill county, and it having been determined that the term for which Hon. C. H. Burch, or the contestant, was elected, will expire two years from the day succeeding the first Monday in June, 1884.

Your committee are of the opinion that the interest of justice would not be subserved by interfering in any way with the right of Hon. C. H. Burch to a seat in this body.

The committee desires to say that, inasmuch as Hon. C. H. Burch only received one vote in excess of the number of votes received by Hon. Lee Laughlin and the legality of many votes cast being in question, that, in their opinion, no censure should be attached to the latter, by reason of the expense incurred to the State through this contest, and your committee would recommend that, as is the practice in the Congress of the United States and of the Legislature of this State, Hon. Lee Laughlin, contestant, be allowed mileage and per diem herein, and further, that this report and the following resolution be adopted:

RESOLUTION.

First. *Resolved by the Senate*, That Hon. C. H. Burch is entitled to retain his seat in the Senate as Senator from Yamhill county for the term of two years from the day succeeding the general election held in June, 1884, and that the contest of Hon. Lee Laughlin thereto be, and the same hereby is dismissed.

Second. *Resolved by the Senate*, That there be allowed to Hon. Lee Laughlin, as contestant for the said office of State Senator the usual mileage and per diem of a member of this body, and the further sum of \$100 be allowed to each party herein, to-wit: Hon. C. H. Burch and Hon. Lee Laughlin, in full of attorney's fees and expenses incurred by them in the matter of said contest.

The testimony taken is filed herewith.

Respectfully submitted,

JOSEPH SIMON,
JOHN EMMITT,
J. M. SIGLIN,

Committee on Elections.

mon, of the committee appointed under H. C. R. No. 7, to examine and report as to the books and accounts of the Secretary submitted the following report, which, on his motion, was

REPORT.

SENATE CHAMBER,
SALEM, February 20, 1885. }

President.—Your committee appointed under House Concurrent Resolution No. 7, to examine the books and accounts of the Secretary of State, and the Board of Commissioners for the sale of school lands, have the honor to report that they have performed the duty assigned to them so far as their other Legislative duties would allow. The committee employed M. C. Athey, an expert accountant, to examine the books and accounts of the officers aforesaid, as instructed by the resolution, and we have supervised and directed the more extensive examination made by him.

We find the office of the Secretary of State in a very satisfactory condition, the records being neatly and accurately kept, and the system of book-keeping being so simplified as to admit an immense amount of work to be done, and permit the business pertaining to the office to be regularly and quickly transacted.

We find that the business of the office increases each year, with the increase of sessions to our population, and we deem it a great compliment to Hon. R. P. Earhart that the vast amount of business of the office has been transacted with such rapidity as to cause no delay or inconvenience to the public.

The expenditures have been restricted to the rates and amounts provided by law, and in all matters in which the Secretary has had to exercise discretionary powers, strict economy has been observed.

We believe that the clerical force of the office ought to be increased, so that a clerk to attend to the correspondence, a warrant clerk and a reporter, which would allow the Secretary of State to give more time to board duties.

The assistant Secretary of State, Maj. F. E. Hodgkin, has kept the books and accounts in a manner that is exceedingly creditable to him. They are very neat and accurate.

The book and document room is immediately under the office of the Secretary of State, is of easy access, and the books and documents therein are well stored and so arranged as to be easily found.

There are now stored in the book room, thirty-eight volumes of reports, consisting of the reports of the United States and Mexican boundary survey, and the reports of the explorations and surveys to ascertain the most practical and economical route for a railroad from the Mississippi river to the Pacific ocean, which contains a full scientific report, illustrated with colored plates of the flora and fauna of the northwest and southwest, and those volumes are exceedingly valuable, there being but few copies in existence, and this State being in possession of two copies, they ought to be placed in the archives and carefully guarded from injury or loss.

We have examined the books and accounts of the Board of Commissioners for the sale of school lands, which show a marked increase in the business of this office.

The business transacted is more than double that transacted during any previous term. E. P. McCornack, the Clerk of the Board, is a very efficient officer, and has kept the records and papers in a very neat manner, and the accounts of the office have been kept accurately. He has received and receipted for \$437,522.63 in sums of \$1.00 and upwards, and transacted all other business incidental thereto, with such celerity and exactness as to demonstrate his efficiency as an officer, and commend him to all who have business to transact with the Board.

Your committee would further report that M. C. Athey has been employed from the 21st day of January to the 20th day of February, both days inclusive, and we recommend that he be paid at the rate of five dollars per day.

Respectfully submitted,

JOSEPH SIMON,
ENOCH HOULT,
L. THERKELSON,
HENRY ROGERS,
